Terry and Melanie Hull

POSITIONED TO IMPACT THE NEXT GENERATION

When God changes your life with the message of His grace, He plans to position you to change the lives of the next generation of leaders! Some people believe that God calls the qualified, but it's actually the opposite: He qualifies the called! For Terry Hull, it started when he experienced something he was taught to believe didn't really happen: a healing miracle.

Terry suffered a severe back injury at work and needed to be horizontal to get any relief. But after nine months, his condition was worsening. It was at this time that he encountered the teaching of Andrew Wommack. "I was laying there one Sunday afternoon, and my

mother-in-law walked in and goes, 'You gotta hear this tape.' She handed me a cassette tape of Andrew Wommack." The teaching changed Terry's life. "When I heard Andrew for the first time, that was when it *all* made sense . . . Within two weeks, I was totally healed. Within two months, I was in Charis Bible College." At that point, he and his wife, Melanie, dedicated their lives to the message that changed their lives. "It was, like, 'This is what I gotta have.'" But this was only the beginning of what God had in store for the Hulls.

After Terry graduated from Charis in 2003, he and his family moved back to Florida, where he would

finish his third year of school. Years later, he became the director of Charis Orlando. "It's definitely not something we went after," he shares. But God qualifies the called. Now that Terry is positioned to commit to faithful men and women the things that he's learned (2 Tim. 2:2), a multiplying effect is taking place through Charis Orlando.

"One of our students had gotten saved right before coming to Charis, and we didn't realise at the time that he had been in jail," Terry recounts. "He'd been in drugs, things like that." Terry describes his first meeting with his now-graduate student Phil Broucek. "I think his car

broke down, and he pulled into a car park to work on it at the church we were going to be meeting at . . . He was working on some wiring when he heard God tell him, 'Join this flock.' And so, the next Sunday, he went in, and we were announcing, 'We're starting a Charis Bible College extension campus,' and we told him, 'That's why you're here.' God hooked him up kind of miraculously, coming in at that time."

But while this was another supernatural encounter of grace, discipling Phil was not without its challenges. "He had a difficult time communicating and that sort of thing," Terry shares. "We kind of scratched our heads, wondering, 'Is this guy even going to make it? Is this for him?'" But God had plans for Phil, just like He'd had plans for Terry. "God kind of

told us, 'Stick with him. He just needs My Word to keep renewing his mind.'" That's just what Terry and Melanie did, and they watched God's Word completely transform Phil's life. "Phil is one of our key volunteers now, leading small groups and discussions. He knows God's calling him to be a teacher. So, seeing students come in one way and go out another, that's what it's all about."

Now in his third year of directing Charis Orlando, Terry has seen the school grow by 60 percent each year! When asked about why the school is exploding the way it is, Regional Director Deanne Gissel says, "I really feel like they've got a hold of Andrew's vision . . . They have such a heart to grow Charis Orlando, not just to have the numbers but to grow it because of the *value* of the

Word that these people are receiving . . . When you talk to Terry and Melanie, you know that they *really* care about you receiving what God has for you. They want you to have God's best in your life."

TESTIMONY:

The Belize mission trip was one of the most amazing experiences of my life. It was non-stop ministering. I enjoyed every day of it.

Our host ministered to people everywhere! He was an inspiration to me and definitely lit a spark in me, always looking for opportunities to minister Christ's love.

My expectation was to see healings, miracles and salvations. And at first it didn't seem like I was really seeing any miracles, and I was becoming a little disappointed. But when we went to the hospital to hand out supplies and pray for people, I had the great honour of helping lead a mother named Terasita and her two adult children to receive Jesus. During this time, God spoke to me and said I was seeing miracles. I was seeing something greater than blind eyes opening, the deaf hearing, and the paralysed walking; I was witnessing people being translated from the power of darkness into the kingdom of the Son of His love (**Col 1:13**). It was awesome!
