

# WORLD OUTREACH

TRAINING LEADERS. TRANSFORMING LIVES. IMPACTING NATIONS.

Luitgard at Charis in Germany

## A BREATH OF FRESH AIR FREEDOM FROM ALLERGIES

As Andrew's free teaching materials reach across borders and oceans, one thing is clear: no matter the culture or language, **the message of God's healing power** is touching hearts and impacting lives across the globe. Stories like Luitgard's in Germany stand as a powerful testament to this truth.

For over twenty years, Luitgard dreaded the arrival of spring. Each April, as flowers bloomed and pollen filled the air, **her severe allergies** would strike with full force. What should have been a season of renewal instead became a prison, trapping her in a cycle of symptoms and exhaustion. No remedy seemed to offer lasting relief, leaving her questioning if she would ever break free from her springtime suffering.

Luitgard shared, "**April was the worst time for me.** It was quite hard and made me panic. Burning eyes, constant sneezing, and a heavy head—it felt like something was wrong, and it wasn't getting better."

For years, Luitgard had faithfully watched **Andrew Wommack's teachings**, drawing strength and hope from his message of God's unconditional love and grace. She also completed her first year of **Charis Bible College**, where she learned the powerful truth that **God wants us well.**

### Healing Prayer over the Phone

When spring approached once again, bringing the familiar fear of allergies, Luitgard recalled what she had been taught at Charis. She reached out to **our location in Germany** and received prayer from a staff member, who boldly rebuked the allergies and stood in agreement with her for healing.

What happened next amazed her.

"She prayed for me a few weeks before April," Luitgard recalled. "**And then April came, and everything was okay. I couldn't believe it!** I had been waiting for the usual symptoms, like burning eyes, a stuffy nose, and a heavy head, but nothing came. Even this year before April, I thought, 'Oh, April! It will be a hard time.' But then I remembered, '**No, I am healed!**'"

Luitgard enjoying the season

Luitgard completing the Charis First-Year Program

More than three years have passed since that powerful prayer over the phone, and Luitgard remains completely free from all allergies. She now enjoys the beauty of spring without fear. Looking back, she knows that the foundation she built through listening to Andrew's teachings, along with her classes through Charis online, helped strengthen her faith to stand firm for her healing.

**"Andrew's teaching is so clear,"** Luitgard explained. "It clears your mind. Then you know exactly what to do, and you know that you have to stand on the Word. You take the Word as truth and say, **'Yes, that's what I am. This is for me.'**"

### You Are Spreading Hope Around the World

Luitgard's story is a powerful reminder that the impact of this message extends far beyond borders, made possible by the faithful support of **our Charis World Outreach Partners**. It's because of your generosity that lives like Luitgard's are being transformed—halfway around the world in Germany. Your partnership is a beacon of light and truth, reaching people in their darkest struggles and offering hope where science falls short. Together, **we are making an impact that will echo into eternity**—touching hearts, changing lives, and sharing God's unwavering truth.

Luitgard shared, **"I am very thankful for all the people who support this ministry. Because of you, this Word can reach the world. I think every Christian should hear it and take it and live it."**

### Don't Settle for What's "Normal"

Luitgard's journey has taught her a powerful truth: **never settle for sickness**, no matter how "normal" it may seem. Having experienced **God's miraculous healing firsthand**, Luitgard is confident that what God did for her, He will do for anyone who dares to believe.

**"We are in the heritage of Jesus,"** she said. "He took us out of the darkness and into the light, where there is no sickness. Jesus is the winner, and He took every sickness. You can stand on this truth, and it will happen. Stay strong in believing what Jesus did for you."

Together, we will continue to share this life-changing truth with those still bound by sickness and disease, helping them break free and experience God's healing power. Luitgard's story encourages us all not to accept the limitations this world may try to impose but to embrace **the freedom we have in Christ—no matter the season**.
